\$20

The cost of a box of pistol ammo, a couple boxes of shells, or a brick of .22s. It doesn't sound like a lot of money. But if everybody who read this report over the last year had contributed \$20 we could wage war against antigun legislators in Albany and across the state. They would have to spend millions trying to defend their disgraceful record. There wouldn't be talks about increasing fees and renewable pistol licenses. New York, including New York City, would become the next right to carry state.

Your gun rights are worth \$20 a year, aren't they?
